# Marco Barbieri

Producer, Composer, Sound Designer

## Summary

Dedicated musician with over 6 + years of experience in music production. Studied music at **CPM Music Institute** in Milan and refined recording and production skills in the studio of the renowned independent Italian label, "**La Clinica Dischi**". Many of my works have been published by leading music companies such as **Sony, BMG, Artist first and Belive Music**. Proudly credited for composing and producing the original song for **Rai's** series "**Shake.**"

## Work Experience

### La Clinica Dischi

November 2018 - May 2023

- Composer, Producer, Sound Designer, Audio Engineer.

### cmqmartina - cool tour

July 2022 - March 2023

- Live musician (*Dj, Keyboard Player, Guitar Player*).

### La Jungla Factory

October 2021 - May 2022

- Mix Engineer.

## Skills

### Perfect pitch

- Ability to instantly recognize and identify musical notes, chords, and keys without external reference.
- Precision in perceiving tonal variations and melodies, facilitating accurate creation and correction during music production.

### Composition

- Proficient in crafting original musical compositions across diverse genres.
- Skillful use of musical theory and creativity to produce engaging melodies, harmonies, and arrangements.
- Experience in tailoring compositions to evoke specific emotions or enhance visual storytelling in various media contexts.
- Versatile multi-instrumentalist with advanced skills in guitar, bass, keyboards and expert in programming drum machines and synthesizers.

## Production

- Extensive experience in music production, combining technical expertise with artistic creativity.
- Strong understanding of sound design principles, resulting in the creation of polished and distinctive musical works.
- Track record of successful collaboration with artists and labels, delivering high-quality productions across a variety of musical genres.

## Audio Engineering

- Advanced skills in audio engineering, with a focus on capturing, editing, and mixing to achieve optimal sonic quality.
- Expertise in using professional recording equipment and software for precise control over audio elements.
- In-depth knowledge of signal flow, acoustics, and audio processing techniques, enhancing the overall audio production process.

## Soft Skills

- Quick Problem Solving: Proficiency in promptly resolving challenges with creativity and efficiency.
- Teamwork: Positive experience in collaborating and building effective relationships.
- Adaptability: Ability to quickly adapt to new situations or environments.
- Stress Management: Skill in maintaining calm and mental clarity even under pressure.
- Initiative: Willingness to take initiative and perform tasks independently.

## Selected Works
